Administration Manager

ELEVATE
Leadership Essentials
Programme

I have always suffered from a lack of confidence and needed some tools to work through this, especially in relation to leading a team.

Since completing the first stage of the course, I better understand my strengths and weaknesses and have come to realise that just because I have weaknesses it doesn't mean I'm not good enough - it means that I know where I need to get extra support and put more energy into developing that area.

I can't wait for the next two stages of this course to see what positive changes it brings into my work life - and my personal life!
