## Think on Your Feet

I decided to sign up for Think on Your Feet for my own personal development. I wanted to be able to deliver more structured presentations and believed this course could provide insight.

This course has helped me know how to better prepare for presentations and provided me with a variety of models to use for delivery options.

I recently had to deliver a group presentation and used EVERYTHING we learned on this course to deliver it.

IMNZ deliver professional, fantastic training with great results!
