FINANCE FOR NON-FINANCIAL MANAGERS

Don’t let your fear of finance get in the way of your success.

Overview
Not a numbers person? But need to sharpen your skills to make better informed decisions?
Whether you’re new to finance or you just need a refresher, this workshop will give you the tools and confidence you need to master the fundamentals, as all good managers must.

By doing this course you’ll learn the real-world skills needed on the job, like understanding financial management, developing budgets and the fundamentals of accounting.

Make better decisions today. Advance to the next stage of your management career.

Benefits To Your Employer
Having staff with the ability to interpret and apply financial data across a range of contexts and understand its implications, means employers can reduce the risk of over/underspending on budgets and improve financial performance.

Learning Outcomes
- Understand the financial management cycle and process
- Understand the basics of planning and the generally accepted accounting principles (GAAP)
- Develop budgets
- Understand the fundamentals of cost accounting, capital expenditure and depreciation
- Learn the importance of cash management
- Analyse and interpret financial accounts
- Conduct cost vs. benefit analysis.

*Book 8 weeks prior to the in-person course commencement and receive 15% off.

Who Is This Course For?
Anyone who plans, manages or reports on financial data and wants a broader understanding of business finance.

Training Format

In-person Learning:
Our public workshops consist of two one day workshops.
*Note that all modules are compulsory for completion of this program. Please ensure you select all 6 modules when completing registration.

Online Learning:
We realise that online learning can be a more convenient option for many, so we built our online courses using learning and development best practice to provide a dynamic and engaging learning experience, overall, making sure to incorporate all the highly regarded material from our in-person sessions.

This online training format consists of six learning modules spread across 6 weeks, which take around 2 hours to complete. This course is a bit more flexible than our others as learners can complete the modules at their own pace.

In-person: 2 Days
Online: 6 Weeks

In-Person Early Bird: * $1,385+GST | $1,630+GST
Online: $950+GST

In-person and Online: Beginner to Intermediate

It was a great course to get more familiar with financial reporting.
